

MOD. 160 PS

Sole assembling pneumatic at 1 station, orizontal adjustment of the last support

- Pneumatic assembling machine for soles with blowing up bell
- Water cushion
- Double inner chamber, one first pressure, one second pressure
- Adapted to whichever type shoe and boot
- Equipped of photoelectric cells for starting the automatic cycle and, for the emergency of the operator
- Possibility of being able to invert the participation of the pressures in automatic cycle
- The shoe support is adjustable in vertical and horizontal
- New cycle of release that allows to speed the cycles and to diminish the air consumption and the usury of rubbers
- It has a air storage cell and a pneumatic system with double capacity of vacuum.
- Adjustable times of first and second press individually until 30"
- Adjustable pressures first and second press individually

TECHNICAL DETAILS

- DAILY PRODUCTION: 115 pairs/hour
- AIR COMSUMPTION AT 7 BAR: 27,5 Lt./min.
- ABSORBED POWER: 0,15 Kw
- DIMENSIONS: cm. 50(21") x 90(37") x 168(69")
- NET WEIGHT Kg. 240 (531 LBS)
